#### **AC-DC Power Supplies Enclosed Type**

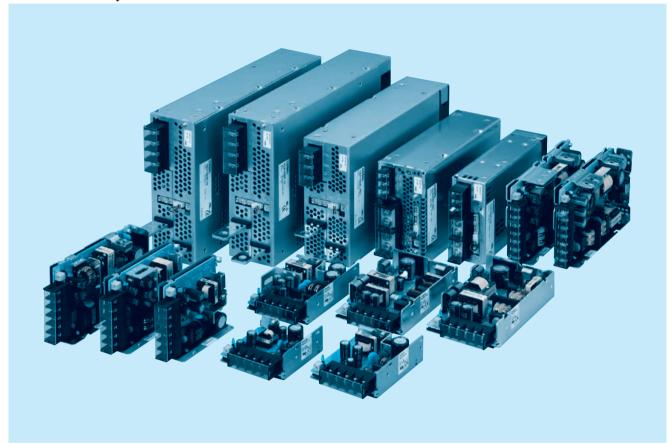

# PBA, PBW-series

#### Feature

Small-size & light weight

Harmonic attenuator (Complies with IEC61000-3-2): except PBA1500T Universal input (AC85 - 264V) : PBA1500T(AC170 - 264V 3 φ) Efficiency increased with synchronous rectification technology (PBA50F - 150F)

Variety of option (PBA10F - 150F, PBW15F - 50F) Parallel operation and Parallel redandancy operation

(PBA300F - 1500F, PBA1500T)

Fan alarm, Remote ON/OFF and other functions (PBA300F - 1500F, PBA1500T)

### Safety agency approvals

UL60950-1, C-UL(CSA60950-1), EN60950-1, EN50178 UL508 (PBA10F - 150F, -24, with cover) Complies with DEN-AN

Complies with FCC-B, CISPR22-B, EN55011-B, EN55022-B, VCCI-B

**5-year warranty** (refer to Instruction Manual)

#### CE marking

Low Voltage Directive **RoHS** Directive

#### **EMS Compliance**: EN61204-3, EN61000-6-2

EN61000-4-2

EN61000-4-3

EN61000-4-4

EN61000-4-5

EN61000-4-6

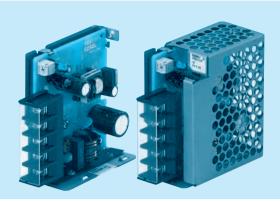

EN61000-4-8

EN61000-4-11

### PBA10F

A 10 F -

### Example recommended EMI/EMC filter NAC-06-472

High voltage pulse noise type : NAP series Low leakage current type : NAM series

\*A higher current rating EMI/EMC filter may be recommended in view of the other devices that could be connected in parallel with the power supply.

Cover is optional

- ①Series name ②Single output
- (3) Output wattage 4 Universal input
- ⑤Output voltage
- Optional \*5
   C:with Coating

  - G:Low leakage current E:Low leakage current
  - and EMI class A
  - T:Vertical terminal block
    J1:VH (J.S.T.) connector type
    N:with Cover

  - (UL508 is acquired)

  - N1: with DIN rail and Cover
  - V:Output voltage setting potentiometer external-

\*Make sure necessary tests will be carried out on your end equipment with the power supply installed in accordance with any required EMC/EMI regulations.

SAFETY AND	AGENCY APPROVALS (At only		UL60950-1, C-UL(CSA60950-1), EN60950-1, EN50178 Complies with DEN-AN							
NOISE	CONDUCTED NOISE		Complies with FCC Part15 classB, VCCI-B, CISPR22-B, EN55011-B, EN55022-B							
REGULATIONS	HARMONIC ATTENU	IATOR	Complies with IEC61000-3-2 (Not buil	t-in to active filter *4) *7						
OTHERS	CASE SIZE/WEIGHT		31 x 78 x 68mm [1.22 x 3.07 x 2.68 inches] (without terminal block) (W x H x D) / 150g max (with cover : 180g max)							
OTHERS	COOLING METHOD		Convection							

- Measured by 20MHz oscilloscope or Ripple-Noise meter(equivalent to KEISOKU-GIKEN :RM101).
- Drift is the change in DC output for an eight hour period after a half-hour warm-up at 25°C.
- \*3 Derating is required.
- \*4 When two or more units are used,they may not comply with the harmonic attenuator. Please contact us for details.
- \*5 Please contact us about safety approvals for the model with option.
- \*6 Please contact us about dynamic load and input response.
- Please contact us about class C.
- Parallel operation with other model is not possible.
- Derating is required when operated with cover.

  A sound may occur from power supply at peak loading.

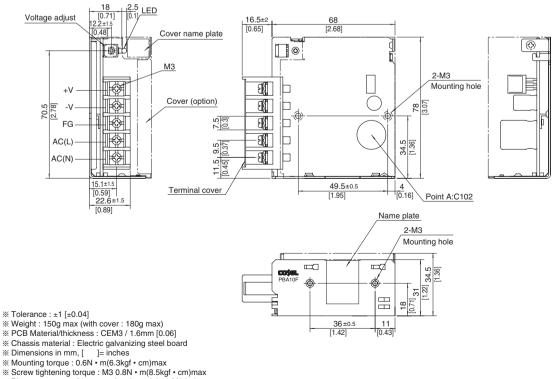

PBA/PBW-2

#### **External view**

※ External size of option T,J1,N1 and V is different from standard model and refer to 7 Option of instruction manual for details.

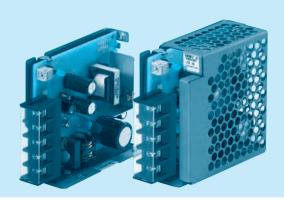

- % Chassis material : Electric galvanizing steel board

- \* Please connect safety ground to the unit in 2-M3 holes.

- Measured by 20MHz oscilloscope or Ripple-Noise meter(equivalent to KEISOKU-GIKEN :RM101).
  - Ripple and ripple noise is measured on measuring board with capacitor of 22 µ F within 150mm from the output terminal.
- \*2 Drift is the change in DC output for an eight hour period after a half-hour warm-up at 25°C.
   \*3 () means peak current. Peak loading for 10s. And Duty 35% max, refer to Instruction manual in detail.
- \*4 Overvoltage protection circuit to follow to output voltage setting. Standard overvoltage protection circuit is please contact us for details.
- \*5 Derating is required.Consult us for details.
- Please contact us about safety approvals for the model with option.
  - A sound may occur from power supply at pulse loading.

9	RC2	: Remote ON/OFF
10	RCG	: Remote ON/OFF (GND)

#### Pin Configuration and Functions of CN3

		0					
Pin No.		Function					
1	-S	: -Sensing					
2	-S	: -Sensing					
3	AUX	: Auxiliary output	(12V 0.1A)				
4	RC1	: Remote ON/OFF					
5	AUXG	: Auxiliary output (GND)					
6	N.C.	: No connection					
7	PG	: Alarm					
8	PGG	: Alarm (GND)					

<sup>\*</sup>Common signs among CN1, CN2 and CN3 such as -S represent the same potential.

#### Matching connecters and terminals on CN1, CN2 and CN3

Connector		Housing		Terminal	
CN CN	S10B_PHDSS	PHDR-10VS	Reel	: SPHD-002T-P0.5 : BPHD-001T-P0.5	
CN	S8B-PHDSS	PHDR-08VS	Loose	. 6600-0011-60.3	

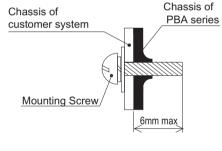

#### **Assembling and Installation Method**

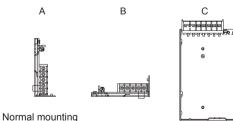

#### Installation Method

■Do not insert a screw more than 6mm from the outside of a power supply to keep enough insulation distance between the screw and internal components.

### PBA10F, PBA15F, PBW15F, PBA30F, PBW30F, PBA50F, PBW50F, PBA75F, PBA100F and PBA150F

- ■If you use two or more power supplies side by side, please keep a sufficient distance between them to allow enough air ventilation.
- ■Ambient temperature around each power supply should not exceed the temperature range shown in "derating".

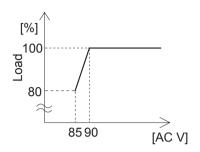

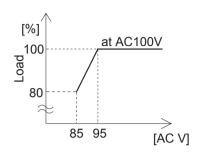

#### PBA300F, PBA600F, PBA1000F, PBA1500F and PBA1500T

- ■The power supplies have a built-in forced cooling fan. Do not block ventilation at the suction side (terminal block side) and its opposite side (fan installation side). If you need to secure a power supply by screws, securely fix it, taking into consideration of its weight. You can install it in any direction.
- ■If you use a power supply in a dusty environment, it can give a cause for a failure. Please consider taking such countermeasures as installing an air filter near the suction area of the system to prevent a failure.
- ■In PBA300F, PBA1500F and PBA1500T, ventilation holes are located on the mounting side. If you would like to install the unit by using that side, please contact us for details.

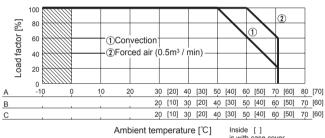

#### Derating

▶PBA10F, PBA15F, PBW15F, PBA30F, PBW30F ▶PBA1500F Input voltage Derating Curve Input voltage Derating Curve

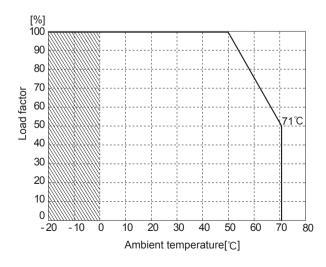

●PBA10F, PBA15F, PBW15F, PBA30F, PBW30F, PBA50F, PBW50F, PBA75F, PBA100F, PBA150F Ambient temperature derating curve

- ■In the hatched area, the specification of Ripple, Ripple Noise is different from other area.
- ■The ambient temperature should be measured 5 to 10 cm away from the power supply so that it won't be influenced by the heat from the power supply. Please consult us for more details.
- ■Make sure the temperature at point A is less than the temperatures shown in Instruction Manual 4.
- ●PBA300F, PBA600F, PBA1000F, PBA1500F, PBA1500T Ambient temperature derating curve

- ■In the hatched area, the specification of Ripple, Ripple Noise is different from other area.
- ■Derating curve depending on an ambient temperature (temperature of air sucked in for a cooling purpose) is shown above.

### PBA·PBW-series

#### **Instruction Manual**

◆ It is neccessary to read the "Instruction Manual" and "Before using our product" before you use our product.

Instruction Manual https://en.cosel.co.jp/product/powersupply/PBA/ Instruction Manual https://en.cosel.co.jp/product/powersupply/PBW/ Before using our product https://en.cosel.co.jp/technical/caution/index.html

#### **Basic Characteristics Data**
